Temporary Catalogue

Paul H. Dear 3 Jan 2012

This is a temporary and partial catalogue of my Soviet/Russian watches, in PDF format. I hope to create a fully-searchable catalogue soon.

In the meantime, the text on each page is searchable. In particular, the text in the "Searchable" box on each page contains a summary of each record.

So, if you're looking for Cardinal-branded watches, search for "brand_Cardinal" (the underscore is important; the capitalization isn't). Or, to find watches with blue dials, search for "dial_Blue", and so on. You'll get the hang of it.

Paul.

According to others on the forum, Vympel made cases for many watch manufacturers, including Raketa; they may have acquired movements from Raketa (in exchange for cases) and used Raketa mvmnt in their own brand, together with Raketa-identical cases.
