SOVIET WRIST WATCHES

MINISTRY OF INSTRUMENTATION,
MEANS OF AUTOMATION AND CONTROL SYSTEMS

VPO SOJUZCHASPROM

Excellent quality of Soviet watches is now undoubted. More than 100 mln people abroad have them. At many fairs and exhibitions around the world the Soviet watches are always a great success.

Foreign trade organizations "Technointorg", "Sojuzkoopvneshtorg" and "Sojuzpromimporttorg", export Soviet wrist watches in 70 countries of Europe, Asia, Africa and America.

Soviet watch factories are modern enterprises equipped with progressive Soviet– and foreign-made technique. The machining of many components and assembling are automated.

Soviet wrist watches have only lever escapement, with synthetic rubies, their feature is a great variety of design – from miniature timepieces with movement diameter 13 mm to men's wrist watches–chronographs with movement diameter 30 mm. There are elegant watches, special timepieces, for medicians, skin divers and watches with signal device.

Soviet watch factories produce timepieces under the following trade names: for women – "Zaria", "Chaika", "Slava" and "Luch", and for men – "Poljot", "Vostok", "Raketa", "Slava" and "Luch".

Producing well-known watch movements, the Soviet factories offer watches with modern fashionable elements of styling. Let us mark only watches with cases from wood, rare metals, natural jewels, pendants and watches with crystal glass. Production of quartz watches is further developing, it is accomplished in close cooperation by the 1st and the IInd Moscow, Petrodvorets and Uglich watch factories.
